A map of Cuba overlaid with a color-coded temperature scale ranging from blue (cooler) to red (warmer). A black box in the upper right corner displays "39.1°C" and "30 Junio 2019". An arrow points from this box to a specific location on the southern coast of Cuba, labeled "Veguitas", which is circled in white. Other locations labeled on the map include La Habana, Cárdenas, Pinar del Río, Sancti Spiritus, Matanzas, Santiago de Cuba, Sagua la Grande, Remedios, Sancti Spíritus, Manzanillo, Cienfuegos, Guaymas, San Juan, and Barahona. The map shows higher temperatures (red/orange) concentrated along the southern coast and lower temperatures (blue/green) in the northern regions.

El récord anterior era de 38.8 grados, obtenido en Jucarito el 17 de abril de 1999.
